

Statement

It is my honor to be nominated as a director of the 4EB Radio station. I hope my 23 years of Radio volunteering and 11 years Chinese group convenor experiences can contribute more to our station. I believe my leadership and communication skills also project management skill sets would create beneficial advice for the station to move forward with our multicultural community culture in our station, is one of the goals that I want to achieve. As a Radio panel operator and broadcaster in 4EB, I enjoy spreading information and entertainment to Brisbane communities. I can contribute more at a higher level to make more positive impacts among different communities.
